

Ugo Romi

+393318480332 | ugo.romi@gmail.com | Siena, Italy

Summary

Full Stack Engineer with a strong focus on frontend development. Boasting 6 years of experience in diverse environments, from larger corporations to dynamic startups. Skilled in enhancing both technical and procedural aspects of projects.

Experience

Unobravo | Siena, Italy

Tech Lead & Senior Frontend Product Engineer | 03/2023 - Present

- Spearheaded the development of an optimized CI/CD workflow for multiple projects, enhancing developer efficiency and reducing CI duration by up to 80%.
- Improved testing resilience and moved internal testing suite from Cypress to Playwright, making it easier and faster for our engineers to write tests
- Mentored junior and intermediate developers, focusing on best practices and problem-solving under tight deadlines.
- Worked on building our internal design system. Improving overall productivity and helping reduce time to first PR by 60%

Spotview

Full Stack Engineer | 01/2022 - 03/2023

- Developed and maintained multiple e-commerce websites for various customers, ensuring high standards in accessibility and speed.
- Led the migration of a legacy data warehouse, minimizing errors and reducing manual intervention.

TAS Group

Frontend Engineer | 05/2020 - 12/2021

- Created comprehensive documentation for efficient onboarding and knowledge management.
- Improved editor performance by optimizing state management and update logic, enhancing team productivity.

Silog | Siena

Backend Developer | 06/2019 - 05/2020

- Optimized multiple NoSQL queries by improving DB indexing to fit very demanding workflows like data export
- Successfully pushed to introduce extensive API documentation which greatly improved the iteration speed of our frontend team

Panacea SRL

Full Stack Developer | 11/2017 - 06/2019

- As the solo developer created and maintained an enterprise-level SaaS email client, including a custom version for an institutional client handling hundreds of thousand of emails per month.

NYU Abu Dhabi

Full Stack Developer Intern | 04/2016 - 11/2016

Contributed to the development of a survey platform used for university-wide statistical analysis studies.
